RAPID PRO L

PRODUCT SHEET

+ **For trapezoidal, corrugated, and concrete roofs**

+ **Pre-assembled with multi-adapter that is usable for both ProLine and the Standard rails**

+ **Rail seat is height-adjustable**

PRO

WARRANTY UP TO **25** YEARS according to our warranty terms

Optimal load distribution

With its optimised base length, the design of this special fastener minimises the forces on the roof sheet. This allows a good load introduction into the substructure.
Minimising the installation effort

The module beams are height adjustable on the fastener which allows for varying panel clearance to the roofing sheet based on application. The UV-resistant EPDM rubber underlay guarantees absolute water tightness. These installation practice-oriented features reduce the installation costs enormously.
