

# ASE Technology Bollard Datasheet

## Product Description

The ASE Technology 90mm Surface Mounted Yellow Bollard with Fixing Kit is a reliable safety solution made from durable carbon steel with a powder-coated yellow finish. It provides a strong visual barrier with a height of 900mm and diameter of 90mm, and features a 50mm silver reflective tape to enhance visibility at night and in low-light conditions.

The bollard comes with a fixing kit comprising of four M12 x 80 expansion anchor bolts, making it easy to install on any flat surface. It is an ideal choice for protecting solar batteries and can be used in a variety of spaces, such as parking lots, garages and pedestrian walkways.

HEIGHT	900mm
